Student

About Me

Self-motivated and hardworking fresher seeking a challenging opportunity in frontend development, I am eager to apply my technical knowledge and intelligence to drive the growth of the organization. With a solid understanding of technical concepts, I am highly motivated to learn and grow in the ever-evolving world of IT.

My goal is to become a valuable member of a dynamic team while contributing to the success of the organization.

Project

1. iChat Web Application

Individual Project

Skills Used - HTML, CSS, JavaScript, Node.js, Socket.IO

Created a responsive chat application with real-time messaging capabilities using socket.io and Node.js. Implemented front-end design principles for seamless user experience.

2. ToDo Web Application

Individual Project

Skills Used - HTML, CSS, JavaScript, Node.js

My project, "Todo," is a web application that allows users to create and manage their to-do lists effectively. "Todo" is an excellent tool for anyone looking to stay organized and on top of their tasks.

3. Personal Portfolio Website

Individual Project

Skills Used - HTML, CSS, JavaScript, Node.js

I designed and created a comprehensive personal portfolio website to present my professional profile, incorporate my experience, skills, and educational background.
